Challenges

❏ **Expand NREN Participation:**
    ❏ Encourage and increase the participation of NRENs in the working group, ensuring the continuous and efficient exchange of topology data.

❏ **Manage data sharing for creating and updating the GREN Map**
    ❏ Simplify the process for creating a v1 of a global map
    ❏ For the future create automations to update the map

Strategy Points

❏ **Establish Regional Points of Contact:**
  ❏ Create a channel to facilitate communication and engagement

❏ **Create ways to 'automate' and facilitate data contribution:**
  ❏ Standardize the type of information expected from NRENs

❏ **Disseminate Use Cases:**
  ❏ Encourage new participation by demonstrating the project's value
